## Global Entry Collection - Wood

**Construction** Global Entry is constructed with 100% virgin vinyl materials. The decorative film layer is protected by a 20 mil commercial wear layer and is coated with a ceramic-enhanced urethane, M-Force™, which is polish-optional for versatile maintenance.

**Morikato** takes inspiration from the Japanese word for “Forest,” offering a vast color line of timeless natural hardwood visuals and cutting edge charred wood, cerused grains and linear composite styles. The color palette builds on the distressed, reclaimed looks in both cool and warm tones, as well as provides sophisticated upgrades to classic maple, cherry and chestnut species. The 7” x 48” planks stay in line with large format trends in plank, yet are neutral enough to satisfy a wide variety of projects and end use segments.

Colorways available in 7” x 48” planks

**Antiek** hails from Scandinavia where wide, natural woods are regaled for their inherent beauty. Each plank is embossed with a wood texture that perfectly aligns with the grain pattern, a process called “Embossed in Register,” achieving the most realistic visual possible in luxury vinyl plank. Colorways span from cool to warm, and specie designs are offered in rustic or clean grades of oak. Antiek planks are 9” wide and 48” long for a look that is authentic to European hardwoods and installs quickly across large areas.
